

Introduction

This Online Map Guide provides an overview of the Sussex County Map Viewer website. Please refer to the examples listed throughout this guide for detailed instructions on search methods and user interface navigation.

Map Layers

Layers contain information, symbols and elements displayed in the map. Layers are organized by theme into *layer groups*. For example, "Parcels" is a layer in the **Addresses/Parcels** layer group.

The Layer Visibility window controls the contents displayed in the map.

Layer Visibility		
<input checked="" type="checkbox"/>	Addresses/Parcels	
<input checked="" type="checkbox"/>	911 Addresses	<input type="checkbox"/> id?
<input checked="" type="checkbox"/>	Parcel Labels	
<input checked="" type="checkbox"/>	Parcels	<input checked="" type="checkbox"/> id?
<input type="checkbox"/>	County Districts	
<input type="checkbox"/>	Schools/Libraries	
<input type="checkbox"/>	Hydrology	
<input type="checkbox"/>	Tax Index	
<input type="checkbox"/>	Transportation	
<input type="checkbox"/>	Statewide	

Click the checkbox to turn a layer group, layer, or "ld" on or off.

Layer is on

Layer is off

Tip: Turning off unused layers increases map performance and reduces map clutter.

Click the ► icon to expand a layer group.

<input checked="" type="checkbox"/>	County Districts	
<input type="checkbox"/>	Zip Codes	
<input type="checkbox"/>	Fire Districts	
<input type="checkbox"/>	County Council Districts	
	NAME	
<input type="checkbox"/>	District 01	
<input type="checkbox"/>	District 02	
<input type="checkbox"/>	District 03	
<input type="checkbox"/>	District 04	
<input type="checkbox"/>	District 05	
<input type="checkbox"/>	County Boundary	
<input type="checkbox"/>	Schools/Libraries	

Selecting Features

Some Layers have the ability to provide additional information *via* the Selected Features window when an item from that layer is selected. Toggle-on the layer's "Id?" box located in the Layer Visibility window to make items in a layer selectable. To make a selection, **click** the item in the map.

1) Toggle-on "Id?" boxes for Parcels and School Districts layers. This example will display details about a selected parcels and related school districts.

2) **Click** the map to select a parcel. Parcel details are displayed in the Selected Features window.

Selected Features:

School Districts (1)	
▼ 1) 135-19.08-155.00	
Parcels (1)	
School Districts (1)	
Pin With Assessment Unit	135-19.08-155.00
Deed Book Page	D 1983 312
Name	SUSSEX COUNTY
Mailing Address	PO BOX 589

3) To view school district information that corresponds with the highlighted parcel, **Click** the ▼ icon in the Selected Features window, and select "School Districts" from the dropdown menu .

Searching By Address Layer

The **Address Layer** search utilizes address data that is maintained by Sussex County. Searching by Address Layer will return results even when minimal address information has been entered in the search bar. For example, entering the single-digit “2” in the search bar will return every Sussex County address that contains the number “2”.

1) Select “Address Layer” from the dropdown menu.

2) Enter address information in the search bar. This example is searching for **ALL** county addresses that contain “The Circle”.

3) **Click** the magnifying glass icon to search.

Selected Features: Addresses (12)

Primary Address	1 THE CIRCLE
Community	GEORGETOWN
Zip	19947
Zipcode Community	GEORGETOWN

1) 1 THE CIRCLE, GEORGETOWN, 19947	Zoom
2) 13 THE CIRCLE, GEORGETOWN, 19947	Zoom
3) 18 THE CIRCLE, GEORGETOWN, 19947	Zoom
4) 2 THE CIRCLE, GEORGETOWN, 19947	Zoom
5) 22 THE CIRCLE, GEORGETOWN, 19947	Zoom

Selected Features (1 - 5 of 12)

Address details are displayed in the Selected Features window.

- Highlighted Address
- Other Addresses Returned

The example search returned all twelve Sussex County addresses that contain “The Circle”. Use the Selected Features window to browse through returned search records.

Searching By Address Locator

The **Address Locator** search utilizes address data that is maintained by State of Delaware. Searching by Address Locator requires entering the full address.

1) Select "Address Locator" from the dropdown menu.

2) Enter address information in the search bar.

3) **Click** the magnifying glass icon to search.

Selected Features: Addresses (1)

▼ 1 | 2 THE CIR, GEORGETOWN, DE, 19947 (100%) Zoom

Loc_name	DE_CenterLines
Score	100
Match_addr	2 THE CIR, GEORGETOWN, DE, 19947
House	
Side	L
PreDir	
PreType	
StreetName	THE
SurType	CIR
SurDir	
City	GEORGETOWN
State	DE
ZIP	19947
User_fid	0
Addr_type	StreetAddress

A green circle represents the location of the address on the map.

Address details are displayed in the Selected Features window.

Searching By Tax ID

1) Select "Tax ID" from the dropdown menu.

2) Enter Tax ID information in the search bar.

3) Click the magnifying glass to search.

The searched parcel is highlighted in yellow.

Additional parcel information is displayed in the Selected Features window.

Selecting Multiple Features

1) Turn off all layer groups, "Id?" boxes, and layers that are not of interest.

The screenshot shows the 'Layer Visibility' panel. The 'Addresses/Parcels' group is expanded, and '911 Addresses', 'Parcel Labels', and 'Parcels' are checked. The 'Id?' box next to '911 Addresses' is also checked. Other layer groups like 'County Districts', 'Schools/Libraries', 'Hydrology', 'Tax Index', 'Transportation', and 'Statewide' are collapsed and unchecked.

2) Click on the "Id?" box that corresponds with the layer features that will be selected. (This example is selecting address points.)

The screenshot shows the 'Layer Visibility' panel. The 'Id?' boxes next to '911 Addresses' and 'Parcels' are checked. The 'Addresses/Parcels' group is expanded, and '911 Addresses', 'Parcel Labels', and 'Parcels' are checked.

3) Click information icon located in the top-left corner of the map to select features within the map.

The screenshot shows the map interface. An information icon (a lowercase 'i' in a square) is highlighted in the top-left corner of the map area. The map shows a street grid with a circular road intersection.

4) Click-and-Drag to select across the area where the features are located.

The screenshot shows the map interface. A red selection box is drawn over a parcel, indicating that features within that area have been selected. The map shows a street grid with a circular road intersection.

Information on the highlighted feature, "●", is displayed in the Selected Features window. Other features from the selection are marked with "■".

The screenshot shows the 'Selected Features' window and the map interface. The 'Selected Features' window displays details for a selected feature, including 'Primary Address: 2 THE CIRCLE', 'Community: GEORGETOWN', 'Zip: 19847', and 'Zoncode Community: GEORGETOWN'. The map shows a street grid with a circular road intersection, and a yellow circle highlights a specific feature, while other features are marked with blue squares.

Navigation Tips

Some layers and labels are scale-dependent. Scale-dependent layers will remain "greyed out" and inactive until the map is "zoomed" to a scale suitable for their display.

The scale bar is located in the top-right corner of the map. Change the scale by moving the scale bar up or down OR by using the scroll wheel on your mouse.

"Greyed out" layers cannot be toggled on or off without adjusting the map scale.

After adjusting the scale, these layers are now selectable.
