INTRODUCTORY SECTION

DAVID B. BAKER COUNTY ADMINISTRATOR

Sussex County

ADMINISTRATIVE OFFICE BUILDING 2 THE CIRCLE P.O. BOX 589 GEORGETOWN, DELAWARE 19947 TEL: 302855-7742 FAX: 302-855-7749 E-MAIL: administration@sussexcountyde.gov

January 26, 2009

The Honorable Sussex County Council President, Members of the Sussex County Council, and the Citizens of Sussex County:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) for the Sussex County Council for the fiscal year ended June 30, 2008. This report includes the annual financial statements as required by Delaware law, presented in conformity with generally accepted accounting principles (GAAP) in the United States of America and audited in accordance with auditing standards generally accepted in the United States of America.

This report consists of management's representations concerning the finances of Sussex County, Delaware (County). Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. The County has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the presentation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's internal control framework has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by Jefferson, Urian, Doane & Sterner, P.A., a firm of licensed certified public accountants. A goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2008, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent audit or concluded, based upon their audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the year ended June 30, 2008, are fairly presented in conformity with GAAP. The auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "single audit" designed to meet the special needs of federal grantor agencies. The standards governing single audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis

on internal controls and legal requirements involving the administration of federal awards. The single audit section of this report includes these reports and related information.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Sussex County's MD&A can be found immediately following the report from the independent auditors.

Profile of Sussex County

Sussex County is proud of its natural beauty, mix of small towns, rich history, and popular attractions found only in our county. It is home to numerous seaside resorts, small towns, industry and agriculture. Our county is the largest county in Delaware, comprising a total land area of approximately 938 square miles, or approximately 46 percent of the State's total area with a population of 188,597. The county is bordered on the east by the Atlantic Ocean, on the north by Kent County, Delaware, and on the south and west by a portion of the State of Maryland east of the Chesapeake Bay. The Town of Georgetown, the county seat, is situated in the center of the county. The county is within 200 miles of New York City, Philadelphia, Baltimore, and Washington, D.C.

The County Government was established on July 23, 1970, replacing the Levy Court Commission with a Council-Administrator form of government. The government is composed of a legislative body, the County Council, and an administrative body that includes operating departments and offices, some of which are administrated by officials elected at-large. The County Council, which has legislative powers, consists of five members representing each of the County's respective districts. Each council member is elected to four-year staggered terms. The County Administrator, County Finance Director and County Engineer are appointed by the County Council. The County Administrator is responsible for the entire range of executive, administrative and fiscal duties performed by all County departments.

Sussex County, Delaware, is a rural county with beaches along the Delaware Bay and Atlantic Ocean. Sussex County is the fastest growing Delaware county, with a population that grew 38 percent between 1990 and 2000. The U. S. Census Bureau estimates that the Sussex population increased an additional 20 percent since the 2000 Census. More people move to Sussex County than are being born here. Sussex County is a popular beach resort area along the Atlantic Coast and also a popular outlet shopping attraction. The County continues to be a desirable location for many people on the east coast. Year-round and seasonal population continues to bring increased requests for County government services.

Sussex County has a unique tradition that we are proud of – Return Day. Return Day originated around 1790 set on The Circle in Georgetown, Delaware. Return Day is two days after election day and was started so 'voters' could come to Georgetown to hear the 'returns' – or results – of the elections. During this day, the election results were read, food was served, and candidates 'buried' the hatchet. Some time later, a parade was started with both the winning and losing candidates riding together in an open carriage.

The County Government provides a variety of services, which statute or Code mandates. Major public services include emergency medical services, land use, libraries, and sewer service. The County also owns and maintains the Sussex County Airport in Georgetown, the operation of which is leased to an independent contractor. The County provides emergency services including paramedics, emergency preparedness, emergency operations, local emergency planning and communications. The Department of Libraries includes three County-managed libraries and a bookmobile. The County has 525 employees. In Sussex County elected officials preside over certain 'row offices' – or constitutional offices. These include Clerk of the Peace, Recorder of Deeds, Register of Wills, and Sheriff's Office. These four offices provide services, such as marriage licenses, recordation of legal papers, and court-related duties. Each of these offices are managed by an elected official, but the County government is responsible for their financial accountability.

The County provides substantial grant-in-aid funding to its residents. Our grant-in-aid package consists of grants to fire companies, Delaware State Police, and sewer contributions. The County has entered into agreements with the State of Delaware to partially fund an additional 40 State Police in Sussex County. This is in addition to the State of Delaware allotment for Sussex County. The County also assesses, bills, and collects school taxes for eight school districts, as well as property taxes for the County government. The County is the primary funding source for 11 local libraries, which are managed by independent library boards.

County sewer and water districts include four treatment plants within its 22 districts. Three of these districts are currently in the design phase. The sewer and water districts' operating budget for fiscal year 2008 was over \$33 million. The County's growing sewer disposal operations handle over 56,000 current customers. There are four new additional approved sewer projects in various stages of construction or design. The number of sewer and water customers has increased over 30 percent in the last five years. The County is aggressively working to provide additional sewer service to meet our environmental and population needs. Each sewer district is treated as a separate fund. Combined financial information is included for these sewer districts in the financial section.

The annual budget is recommended by the County Administrator and approved by the County Council prior to July 1 of each year, which is the start of the County's fiscal year. The budget serves as a financial guide for the County. The budget includes a five-year capital project plan, with proposed financing for projects. Please see note "A" - Section 18 on page 40, for additional budget information. Budget-to-actual comparisons, on pages 63 through 72 and on page 74, are also included.

Factors Affecting Financial Condition

Local Economy

Agriculture, tourism, healthcare, construction, retail sales and education are leading industries in Sussex County. Sussex County is the largest poultry-producing county in the United States, as was the case in 2002, 1997, 1992, 1987, 1982, 1978, 1949 and 1944. Two of the twenty largest U. S. poultry companies, Allen's Family Foods, Inc. and Mountaire Farms, Inc., have headquarters in Sussex County. Perdue Farms, Inc. also has processing facilities in Sussex. Soybeans, corn and other vegetables are also important agricultural products. Sussex County ranks 36th out of 3,075 counties in the United States for value of agricultural products sold, per the U. S. Department of Agriculture. The Farmland Preservation Program has protected over 50,000 acres in agricultural preservation easements in Sussex County. Federal, State, and County funds were used to purchase the development rights for these farms, which permanently preserve these properties for agricultural uses.

Three hospitals are located within the county, in Seaford, Lewes and Milford. Also throughout the county there are other satellite medical facilities. Milford Hospital is undertaking major expansions during the next few years to meet growing demand, while Nanticoke Hospital recently completed a major emergency room renovation. Meantime, Beebe Medical Center has completed a new outpatient facility and has plans for a new 24-hour emergency room satellite in southeast Sussex County. Assisted living facilities and nursing homes are sited in Lewes, Georgetown, Milford, Seaford, Delmar, Millsboro, and Greenwood.

There are eight school districts in Sussex County, plus one Charter School and numerous private schools. The Delaware Technical & Community College, at its 146-acre campus in Georgetown, offers Associate college degree programs in health, business, public service, engineering and industrial education. This Community College has established connected degrees with various other institutions in the region that enables one to graduate with an Associates Degree and transfer to a four-year program at another college. Delaware Tech also provides an accelerated English and Math Program for Sussex County middle and high school students. The University of Delaware, Delaware State University, and Wilmington University also offer courses in Georgetown at the Delaware Technical & Community College. Some four-year degrees, Master degrees, and Doctoral Programs are available through their partnership. The Sussex Technical School District and Delaware Technical & Community College also work closely with county employers to provide specialized training for employees. Delaware Tech is the number one provider of training for technicians at area hospitals.

The County has experienced diversified growth in manufacturing. There has been significant growth at the Industrial Airpark in Georgetown with the addition of DeCrane Aircraft, Inc., which completes interior conversions to Boeing aircraft and installs patented auxiliary fuel tanks for jets as large as the Boeing 737. DeCrane Aircraft, Inc. currently has more than 500 skilled employees and plans to expand their operations in the coming years. Food processing companies include Pinnacle Foods Corp., a pickle processing plant in Millsboro; a seafood processor, Sea Watch International; distributor Burris Logistics, Inc. in Milford; and Eastern Shore Poultry in Georgetown. Invista currently has a workforce of more than 100 employees producing industrial fiber used in military apparel and conveyor belts used in paper manufacturing. Other major employers include furniture retailer Johnny Janosik in Laurel, pharmaceutical producer Barcroft Company in Lewes, dental product manufacturer Dentsply Caulk in Milford, vaccine producer Intervet Schering-Plough Animal Health in Millsboro, and roof truss manufacturer Universal Forest Products in the Industrial Airpark. Arrow Safety Device recently expanded and relocated their corporate office into two buildings in the Selbyville Industrial Park. M & T Bank operates a call and consumer loan-processing center in Millsboro, employing approximately 420 employees.

A flourishing sector in Sussex County is retail outlets. Along a two-mile stretch of Route 1, between Lewes and Rehoboth Beach, there are approximately 140 outlet stores offering a myriad of products, such as clothing, tools, shoes, books, stereo equipment, gourmet food, kitchen supplies, camping equipment, restaurants, and even hot peppers. These outlets have become a year-round attraction for out-of-state residents, especially for those who are

attracted by reasonable prices and the lack of a Delaware sales tax. This Outlet Center is ranked the largest on the Delmarva Peninsula.

Tourism is an important industry in Sussex County. In a 2006 tourism study, an estimated 3 million people-visits to Sussex County occur each year. Tourism had an estimated economic impact of \$709 million, employing more than 10,000 people. In a 2005 study, the most popular activities for visitors were beaches (40 percent), dining (39 percent), and shopping (32 percent). Atlantic Ocean beaches include Dewey, Fenwick Island, South Bethany, Bethany, Rehoboth, and the Cape Henlopen State Park. Delaware Bay beaches include Lewes, Broadkill Beach, and Slaughter Beach. The Delaware Seashore State Park is a popular attraction between Dewey Beach and Bethany Beach, offering swimming, surfing, clamming, fishing and boating as options. This section of beach is a narrow section of land, with the Atlantic Ocean on the east side and the Rehoboth and Indian River Bays on the west side. The Cape Henlopen State Park, between Lewes and Rehoboth, offers ocean and Delaware Bay beaches for swimming and fishing. There are also numerous hiking trails at the park. Sussex County is conveniently located to take advantage of the recent trend to vacation closer to home. The top five states of visitor origin are Maryland, Pennsylvania, Delaware, Virginia, and New Jersey.

Sussex County's population grew 38 percent between the 1990 and 2000 U. S. census. This rate of growth was the highest in the State of Delaware and is expected to continue as the fastest growing county in the state for the next 12 years. The residential housing boom of the past decade can be partially attributed to the quality of life in Sussex County, the seashore, and the reasonable cost-of-living in the county. Low state, school and county property taxes are also factors. The attractiveness of Sussex County as a place to live provided the impetus for the recent residential home-building boom that increased demands on the County. Sussex County attracts a growing number of retirees. Delaware's Population Consortium projects a more than 50 percent increase in the number of Sussex County residents 60 and older through 2020.

Nationally, we are struggling. We are in the midst of a two-year national housing slump that has eroded home prices by as much as 20 percent and slowed sales this year to levels 30 percent below a year ago. With the economy in a slide and the housing market weakened, the challenge now is to maintain and supplement existing County services while facing a decrease in our major revenue source, realty transfer tax. Tremors from the housing market's crash and the overall decline of our economy in general will start to strain future budgets as revenue shortfalls can translate into spending cutbacks. During fiscal year 2008, 1,669 permits for new dwellings were issued. That was down from the 2,323 permits for new dwellings issued in fiscal year 2007, a decline of 28 percent.

Financial Planning

As we submit this report, there are still indefinite concerns with our national, state, and local economy. Currently, we do not know if the bottom has passed or if new lows are ahead. We are implementing budget cuts during fiscal year 2009; however we have a strong financial foundation from which to work. The current economic situation is a considerable part of our financial planning.

The County has funded its non-sewer and water assets on a pay-as-you-go basis and avoided issuing debt. A new County Administrative building is currently being considered and in September 2008, \$2.4 million was spent on land for a future administration site, \$4.2 million was spent on airport expansion and \$1.9 million for library expansion. Additional funds are set aside for infrastructure and a fire protection system at our County Airport. The County plans to fund these projects with Federal Aviation Administration (FAA) grants, State grants, and County contributions.

During fiscal year 2008, four sewer districts were in the planning and design stages. These are in environmentally sensitive areas of the county. The fiscal year 2008 Five-Year Capital Improvement Plan includes \$230 million for sewer expansion and upgrades. Funding for these projects includes State Revolving Fund loans, State grants, Federal USDA loans and grants, and County contributions.

Cash Management Policies and Practices

Except for the fiduciary funds and West Rehoboth Sewer fund, the County invests available funds on a short-term basis with local Sussex County banks. The County solicits bids weekly for collateralized certificates of deposit with these banks. Collateralized money market accounts are also utilized to maximize interest earnings. The West Rehoboth Sewer fund invests in U. S. Treasury obligations and some repurchase agreements.

The County conservatively requires collateralization with U. S. Treasury and accepted Agency Obligations. Our policy is to invest with local Sussex County banks that can provide this collateral held by third-party banks. Please see Note B, on pages 41 and 42, for additional information regarding cash and collateralization.

The Sussex County Pension Trust fund is diversified with three different managers, Fidelity Investments, the State of Delaware Local Government Retirement Investment Pool, and the Wilmington Trust Company. The Sussex County Pension Committee oversees the management of the Pension Trust fund and the Post-retirement Employee Benefit fund and is responsible for recommendations to the County Council regarding investments and funding.

During fiscal year 2008, the Pension Committee developed a new Pension Investment Policy. This policy will protect the County's pension assets, as well as provide guidelines for investing. We have obtained additional Global Equity Investment Managers that will complement our existing investment managers. With the market as volatile as it has been during fiscal year 2008, we are taking a more conservative approach.

<u>Risk Management</u>

The County insurance covers liability, auto, workers compensation, property, public officials errors and omissions, flood insurance, and employee bonding. Insurance matters are reviewed with an independent insurance consultant. Every three years, the County solicits bids on the insurance policies to obtain the best pricing available.

Regarding employee health insurance, the County maintains a self-insured plan, whereby the County funds expenses per insured up to \$250,000 per year. Expenses over the \$250,000 threshold are covered under a reinsurance policy, subject to a maximum aggregate limit of \$10,206,011. The County deposits monies in the health fund each month to cover the health

plan cost. The County has successfully maintained this self-insured plan for over 10 years. Please refer to Note K, on page 56, for additional information.

Pension and Other Post-Retirement Employee Benefits

The County provides a defined benefit pension plan for its employees. Employees are vested with a minimum of 8 years of service. Surviving spouses are eligible for 50 percent of the covered employee's pension benefit. The Pension Trust fund is treated as a fiduciary fund in the financial section.

The County is proud that it has made substantial contributions to the Pension Trust fund over the last few years. The value of the fund has increased from \$4 million in 1993 to \$44 million as of June 30, 2008. Our goal has been to fully fund the pension plan. As of January 1, 2008, the pension plan was 97.8 percent funded. This result is, primarily, due to the strong asset returns and high contribution levels made by the County over the last few years. The fiscal year 2009 budget includes a pension contribution of \$2.3 million, which is 10% of wages. Being 97.8 percent funded will help us to weather the current market decline.

The County, as part of the budgetary process, has limited pensioner cost-of-living increases to one-half of the County employee cost-of-living increase, with a maximum of two percent per year. Pensioner cost-of-living increases are recommended annually with the County budget.

The County provides post-retirement employee benefits to retirees and beneficiaries based on their years of service and status when they leave County employment. In anticipation of GASB 45, which will be effective for our fiscal year ending June 30, 2009, the County established a post-retirement benefit fund account. This fund was valued at \$15 million as of June 30, 2008. The County plans to make annual actuarial-determined contributions to fund the liability for pensioner healthcare benefits. As budgeted in fiscal year 2009, the County will deposit an additional \$3.2 million into this account for post-retirement benefits.

Since October 2007, the stock market, as measured by the S&P 500, has been down over 40%. Pension funds have been negatively affected by this. Over the years, we have put together a well structured, long-term plan for our pension fund. Our long-term plan takes into consideration both the long-term nature of the pension obligations, as well as addressing short-term volatilities that can occur in the market. We have chosen not to go to either extreme of being overly aggressive or overly conservative in the investment of the pension funds. We have developed an Investment Policy Statement that sets out the guidelines for investment of the funds, and we analyze the performance of the total fund. We have taken a posture of investing the assets slightly on the conservative side, but not so conservative that we do not have a reasonable chance of meeting the targeted investment returns. This has led us to a portfolio that is well diversified between stocks and bonds. With all of the uncertainty and, in some cases, the fear that the recent downturn in the market has caused, we have continue to look at and monitor the fund and the fund managers. Therefore, we will continue with a moderate position, keeping ourselves well diversified in the portfolio.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Sussex County for its comprehensive annual financial report for the fiscal year ended June 30, 2007. This was the sixth year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis is due to the tremendous efforts of County employees in the Finance and Accounting Departments. We would especially like to thank those employees and the County auditors for their dedication to the completion of this report.

We would also like to thank the County Council for their support in maintaining the strong financial position of our County by supporting fiscally sound financial policies. Appreciation is also expressed to all additional individuals who assisted in this effort.

Respectfully submitted,

Danie 15 Salar

David B. Baker County Administrator

INDEPENDENT AUDITOR'S REPORT

To the President and Members of the County Council Sussex County, Delaware Georgetown, Delaware

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sussex County, Delaware as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Sussex County, Delaware's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sussex County, Delaware as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable thereof, and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 26, 2009, on our consideration of Sussex County, Delaware's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 3 through 17 and the required supplementary information on pages 59 through 62, are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sussex County, Delaware's basic financial statements. The combining and individual fund financial statements and schedules, listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements of Sussex County, Delaware. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Jefferson, Urian, Doane & Sterner, P.A.

Georgetown, Delaware January 26, 2009

SUSSEX COUNTY, DELAWARE

MANAGEMENT'S DISCUSSION & ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

This section of the report offers an overview and analysis of the financial activity of Sussex County, Delaware, for the year ended June 30, 2008. Please consider this Management's Discussion and Analysis (MD & A) along with other additional information included in the letter of transmittal and other sections of the report.

Financial Highlights

Government-wide Financial Statements

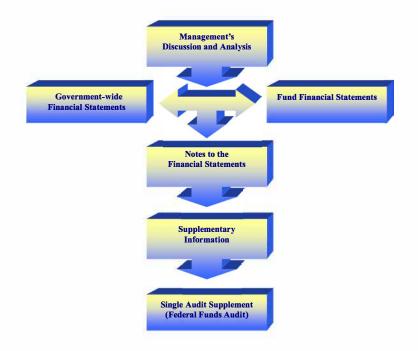

- ➢ As of June 30, 2008, assets exceeded liabilities by \$407 million. Of this amount, \$41 million was unrestricted and may be used for ongoing obligations to citizens and creditors.
- The County's total net assets increased by \$30 million during the year. The governmental activities' portion of the increase was \$6 million. The increase in the investment in capital assets, net of related debt was \$9 million. Restricted realty transfer tax decreased \$3 million mostly due to the decline in the realty transfer tax revenue because of the weak housing market. The business-type activities increase in net assets of \$24 million is, primarily, due to growth-related capital costs, connection fee income, State grant capital contributions, and County contributions.
- > The County has no outstanding General Fund bonded debt.

Fund Financial Statements

- As of June 30, 2008, the County's governmental funds reported an ending fund balance of \$102 million. This decreased \$4 million from the preceding year. About 7 percent, or \$7 million, was unreserved or available for spending at the County's discretion.
- The undesignated fund balance as of June 30, 2008 for the governmental funds was \$4 million or 6 percent of the fiscal year 2009 budget for these funds.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the County's basic financial statements. These basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. Supplementary information, in addition to the basic financial statements, is also included. The Single Audit (Federal Funds) Supplement follows the supplementary information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business. This government-wide financial reporting includes two statements: the Statement of Net Assets and the Statement of Activities. Fiduciary activity, is excluded from these statements because its resources are not available to finance other County programs.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as an indicator of whether the financial position of Sussex County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the current fiscal year. Changes in net assets are reported when the underlying event occurs, regardless of the timing of related cash flows. Thus, some revenues and expenses reported in this statement will not impact cash flows until future fiscal periods.

Both the Statement of Net Assets and Statement of Activities account separately for governmental activities and business-type activities.

- Governmental activities include General Government, Paramedics, Libraries, Planning and Zoning, Economic Development, Emergency Preparedness (911), and Constitutional Offices. These activities are mostly supported by user charges, taxes, and operating grants.
- Business-type activities This includes Sussex County sewer and water districts, which are funded primarily by user charges, assessment charges, connection fees, and contributions.

The government-wide financial statements immediately follow this MD & A on pages 18 and 19 of this report.

The next group of financial statements, beginning on page 20 of this report, are fund financial statements. The fund financial statements reinforce and provide additional information.

A fund is an accounting entity that is used to maintain control over resources that have been segregated for specific activities or objectives. Sussex County, like other state and local governments, uses fund accounting to ensure compliance with finance-related legal requirements. Sussex County's funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Governmental funds account for essentially the same functions as governmental activities in the government-wide financial statements. Governmental fund financial statements do focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in evaluating a government's near term financing requirements. Because the focus of governmental funds is for the current period, it is useful to compare this information with similar information presented for governmental activities in the government-wide financial statements. Readers may then better understand the long-term impact of the government's current financing decisions. The Governmental Fund Balance Sheet and Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance include reconciliations to the government-wide financial statements (see pages 20 through 22).

Sussex County maintains two individual governmental funds. These include the following: General and Capital Project funds. They are presented in separate columns on the governmental funds financial statements.

The basic financial statements include a budgetary comparison statement for the General fund. A budgetary comparison schedule has been included for the capital projects fund in the supplemental information. Sussex County adopts an annual appropriated budget for its General and Capital Project funds.

- Proprietary Funds Sussex County's proprietary funds are solely enterprise funds, which operate in a manner similar to private business enterprises. Sussex County's proprietary funds include three major funds for the Bethany, West Rehoboth, and the South Coastal Regional Wastewater Facility. They also include nineteen nonmajor sewer and water funds (see pages 24 through 31 and 75 through 94).
- Fiduciary Funds Sussex County has two fiduciary funds, the Pension Trust fund and the Postretirement Employee Benefit fund. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. They are not reflected in the government-wide financial statements because the resources of these funds are not available to support the County's own programs. The separate accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 32 and 33 of this report.

Notes to the Financial Statements

Notes to the financial statements found on pages 34 through 58 of this report, provide additional information that is important for a better understanding of the data provided in the financial statements.

Other Information

Pages 59 through 62 include required supplementary information regarding our fiduciary funds. Following on pages 63 through 94 are General fund and Capital Project fund budgetary comparison schedules, General fund revenue and expenditure schedules and combining proprietary fund schedules. The statistical section follows on pages 95 through 164 with additional County information. The Single Audit, a separate federal awards audit, follows the statistical section.

Government-wide Financial Analysis

As previously noted, assets exceed liabilities by \$407 million as of June 30, 2008. Net assets may serve over time as a useful indicator of a government's financial position.

The following Table is a summary of the government-wide statement of net assets:

	Governme	ntal Activities	Business-type Activities	Total Government			
	2008	2007	2008 2007	2008 2007			
Current and Other Assets	\$ 140,897,861	\$ 143,654,585	\$ 87,686,189 \$ 83,384,883	\$ 228,584,050 \$ 227,039,468

Total Net Assets	\$ 157,404,732	\$ 151,480,269	\$ 249,830,284 \$ 225,658,944	\$ 407,235,016 \$ 377,139,213			

SUSSEX COUNTY'S SCHEDULE OF NET ASSETS As of June 30, 2008 and 2007

A large portion of the County's net assets (54 percent) are not available for future spending since they represent amounts invested in capital assets (e.g., land, buildings, machinery and equipment). This investment is net of any related debt that was used to acquire those assets that is still outstanding. It should be noted that the resources needed to repay outstanding debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. This portion of net assets increased by \$25 million during fiscal year 2008, primarily due to developer contributions of sewer infrastructure and County sewer project expansion.

Of the remaining \$189 million in net assets, \$78 million is restricted for the repayment of interest and principal on bonds issued to finance water and sewer district costs or for capital costs incurred. For governmental activities, \$70 million represents realty transfer taxes, 911 fees received, and grant funds

on-hand, which are restricted for specific purposes. Realty transfer taxes must be used for public safety, economic development, public works, capital projects, infrastructure projects, or debt reduction. Realty transfer taxes restricted funds include reservations for sewer district contributions (\$2 million), a new County Administration Building (\$14 million), Industrial Park infrastructure (\$2.7 million), and County Airport improvements (\$2 million). Available 911 fees are restricted for specific emergency dispatch purposes, i.e., software to maintain addressing and mapping.

The remaining \$41 million in net assets is unrestricted and may be used for ongoing obligations to citizens and creditors.

The following schedule shows the breakdown of changes in net assets for governmental and business-type activities for fiscal years 2008 and 2007.

	Governmental Activities				Business-type Activities			Total Government

SUSSEX COUNTY'S CHANGES IN NET ASSETS

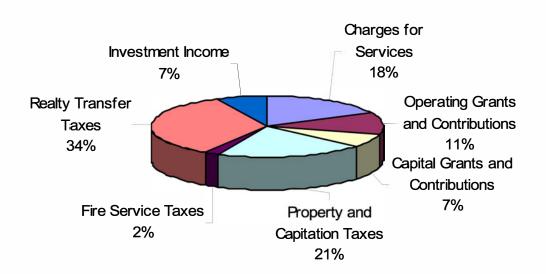

For the Years Ended June 30, 2008 and 2007

Governmental Activities

Governmental activities increased net assets by \$6 million during fiscal year 2008. This represents 20 percent of the increase in net assets for the year. Governmental activities include the General fund and Capital Projects fund.

In the changes of net asset schedule, tax revenues total \$34 million for fiscal year 2008 for governmental activities. This includes \$21 million received from realty transfer taxes. This is a \$6 million decline from fiscal year 2007, due to the sluggish real estate market. Realty transfer tax revenue had risen sharply over recent years, but fiscal year 2006 began to level off, and then in fiscal years 2007 and 2008 there was a sharp drop.

The pie chart below shows realty transfer taxes as the largest governmental revenue comprising 34 percent of total revenue, followed by property and capitation taxes (21%) and charges for services (18%).

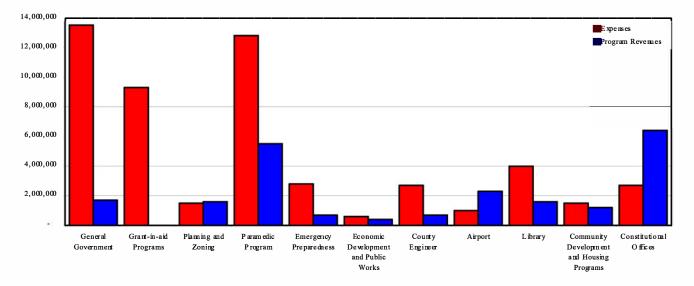

Revenues by Source - Governmental Activities

Charges for services also reflect decreases in revenue from the Recorder of Deeds, Building Permit, and also Building Inspection fees. These revenues were down \$2 million, or 19 percent, from the previous year. This reflects the continued downturn in the real estate market locally as well as mirroring the national real estate slump.

Some governmental activity expenses have increased, mainly due to keeping up with the growth in the County. Growth in these expenses reflects the need to provide services for an increasing population.

The following bar chart compares revenues and expenses for each governmental activity.

Expenses and Program Revenues - Governmental Activities

The population growth of the county has impacted the paramedic department more than any other county service. Over the last five years two new paramedic stations have been added. During peak times, the power unit is deployed in areas when increased resources are needed in response to high demand. Due to the shortage of qualified paramedics, the County has a paramedic training program with Delaware Technical and Community College. This has proven to be a great success and keeps normal attrition manageable.

During fiscal year 2008, the County provided over \$700,000 in grants for a variety of community improvements to local nonprofit organizations as part of a program to benefit County residents. These grants included local historical societies, senior centers, educational, recreation, arts, and agriculture programs. The County also has grant programs to assist taxpayers in meeting their property tax obligation or sewer bills. The County expended over \$1.5 million for open space land preservation. In partnership with the federal and state governments and private sector these funds protect over 50,000 acres of farmland from future development.

The County continues to supplement the state police and local law enforcement. In fiscal year 2008 \$2.1 million was granted to them. This partially funded 36 additional State Police to service our county and provided funding for capital items and operational expenses for our local law enforcement officers.

County funding for the volunteer fire service continued during fiscal year 2008. There was \$3.4 million granted to the fire service including over \$1.5 million for Basic Life Support.

During fiscal year 2008, the County continued expansion projects at the County Airport. Stormwater maintenance and fire system improvement planning studies have begun. The County continued negotiating and purchasing property needed to extend an airport runway, which will enable new businesses and existing employers to grow. The County is also in the construction phase of a crosswind runway project and expects to be completed in fiscal year 2008. Some of these expansion projects could possibly be delayed as we focus on our economic uncertainties.

Our new Emergency Operations Center went live in May 2008. The new Emergency Operations Center cost \$13 million and has state-of-the-art communications equipment.

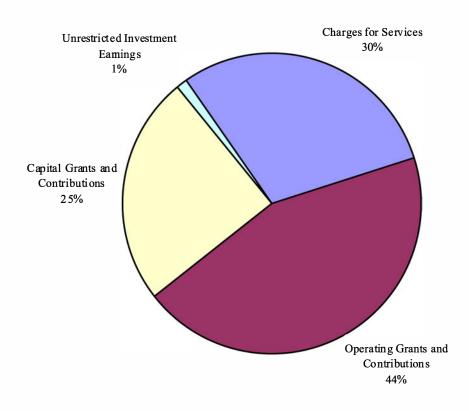

Library expansion continues in the County. All three county libraries are experiencing growth and are in some phase of an expansion project. Construction began in fiscal year 2008 for the expansion of the South Coastal Library, a \$5 million project.

County contributions were granted to the sewer and water districts during fiscal year 2008. These funds help offset capital costs incurred and help maintain sewer user rates at reasonable levels.

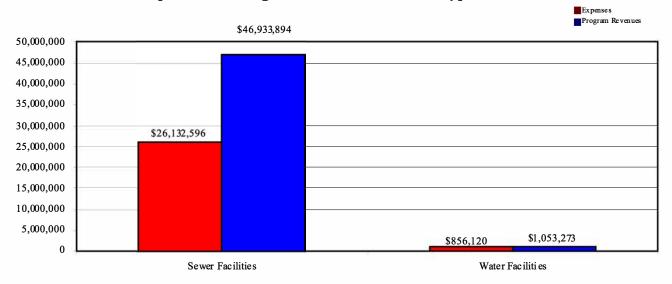

Business-type Activities

Sussex County's water and sewer funds recorded an increase in net assets of \$24 million during fiscal year 2008. Income before capital contributions and transfers was \$9 million. There were two significant increases in fund net assets for business-type activities. Sewer infrastructure has added to the proprietary funds investment in net assets. Net assets restricted for construction and debt service is the other significant increase. This reflects the expansion of sewer service in the County during fiscal year 2008. The pie chart reflects revenue by sources.

Revenues by Source - Business-type Activities

The following bar chart shows that program revenues exceeded expenses for both sewer and water facilities.

Expenses and Program Revenues - Business-type Activities

- Capital contributions from developers totaled \$8 million during the year. This includes sewer facilities for new development as required by County ordinance, which are deeded to the County upon project completion.
- The County received \$8 million in connection fees for new growth in the sewer and water districts. Connection fee income increased only slightly over fiscal year 2007, but is still a healthy number. The housing market which directly affects our connection fee revenue peaked in fiscal years 2005 and 2006. In fiscal year 2008 this revenue increased by only 2%. County sewer and water districts' EDUs still grew by 5 percent, from 56,992 at the beginning of the year to 59,774 as of June 30, 2008. This reflects continued growth, but at a slower pace. One of the County's goal has always been to support our Inland bays by supporting central sewer.

Financial Analysis of the County's Funds

As previously noted, Sussex County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

Governmental fund accounting provides information on available or spendable resources. This information is useful in assessing the County's financing requirements for operations. Unreserved fund balance may serve as a useful measure of the County's net resources available for spending and for future needs.

During fiscal year 2008, fund balances of the County's governmental funds decreased \$4 million to \$102 million. This is primarily due to the decrease in the residential housing demand in the County. The real estate market is slowing or perhaps leveling off by correcting itself from the inflated market over the last

several years. This has caused revenues to drop and for the County to have a deficit for the fiscal year reducing our undesignated portion of fund balance to \$4 million. Noncurrent assets have increased due to our policy of interim financing of our sewer districts using our realty transfer tax. Restricted realty transfer tax cash has decreased \$3.5 million due to interim financing and also to the drop in the realty transfer tax revenue.

Some of the more significant designations in fund balance are for grants (\$1.5 million), reassessment (\$530,000), and future information technology needs (\$300,000). Our goal is to maintain an undesignated portion of fund balance of approximately 25 percent of the succeeding year's General fund budget. As of June 30, 2008, the General fund undesignated fund balance of \$5 million. The decrease of fund balance is due to the decrease in our realty transfer tax revenue and the other real estate or construction related revenue.

The governmental funds include the General fund and Capital Projects fund. General fund includes County Administration, Finance, Personnel, Buildings and Grounds, Planning and Zoning, Emergency Preparedness (911), Paramedics, Economic Development and Industrial Park, Engineering Administration and Public Works, Solid Waste, County Airport, Libraries, and Constitutional Offices, including Recorder of Deeds, Register of Wills, Sheriff, and Clerk of Peace. The Capital Projects fund includes funding for non-proprietary funds (non-sewer and non-water projects), such as the County Airport, Emergency Operations Center, Industrial Park, County Libraries, and County Administrative Buildings.

During fiscal year 2001, the County defeased all tax supported bonded debt. Since the County has not incurred any tax supported bonded debt since then, the County did not have a debt service fund during fiscal year 2008.

Fiduciary Funds

During fiscal year 2005, the County established an irrevocable fund for post-retirement employee benefits. The County is anticipating adopting GASB Statement No. 45 for fiscal year 2009. Monies in this account have been invested with the State of Delaware Local Government Retirement Investment Pool. The County has been committed to funding this plan to be in compliance of GASB 45. We are currently about 38 percent funded. As of June 30, 2008, net assets held in this account were valued at \$15 million. For fiscal year 2009, the contribution to this fund will be \$3.2 million.

Proprietary Funds

The County's proprietary funds provide the same type of information as in the government-wide financial statements for business-type activities. Net assets, exclusive of amounts invested in capital costs, total \$83 million. Restricted net assets include amounts for West Rehoboth Sewer revenue bond debt service, as well as amounts set aside for construction costs, connection fee revenue, and assessment fees. Connection fees received are to be used for capital costs and assessment fees are used to pay debt service cost.

Please refer to the government-wide financial statement information, regarding business-type activities, for additional discussion regarding proprietary funds.

GENERAL FUND BUDGETARY HIGHLIGHTS

Revenue and Appropriation Budgets

Total budgeted revenues, expenditures, and other financing uses are equal to the original approved budget, with adjustments for any approved budget transfers, for fiscal year 2008. During the year, the County Administrator approved budget transfers for expenditures from department heads. The approved budget transfers include increases in certain line items for requested expenditures, which were offset by decreases in other departmental line items and/or the budget for contingencies. Some of the largest transfers from budgeted contingencies to individual line items, as approved by the County Administrator during the year, were for Sussex Conservation District (\$100,000), addressing software (\$47,000) and Security System Improvements for the administration building (\$32,000).

Budget to Actual - Revenue

Actual general fund revenues and other financing sources were over budgeted revenues by \$1.4 million. This was because \$4.2 million of realty transfer tax was budgeted in capital projects fund but 100% of the revenue is in the general fund. The amount budgeted in the capital projects fund for realty transfer tax represents the funding amount for fiscal year 2008 we wanted to reserve for future capital needs. The real estate market and building climate during fiscal year 2008 was on a steady downward turn all year. Real estate and construction related revenues fell short of the budget including: recorder of deeds, building permits and inspections, mobile home placement fees and private road design fees. Realty transfer taxes revenue fell short of the budget by \$1.8 million.

Budget to Actual - Expenditures

Expenditures and other financing uses narrowly exceeded the budget by \$400,000 as noted on page 72. This takes into consideration \$4 million transferred out to the capital projects fund as per the approved Capital Improvement Budget.

As reflected in the revenue drop in fiscal year 2008, some expenditures related to revenue generating departments naturally are down as well. The Building Code and Public Works departments contract out plan review. As these revenues are down, so are the expenses related to this outsourcing service. This explains the difference of budget to actual in those departments. Personnel's budget variance of \$293,000 is due to an over-estimation of employees retiring. County administration, maintenance, emergency preparedness, and economic development all had management retirements in fiscal year 2007 causing fiscal year 2008 to have less payroll costs. The paramedic departments actual was under budget by \$600,000 due largely to their personal services. The Community Development and Housing programs are grant programs. The grant year crosses over our fiscal year, resulting in a \$200,000 budget savings. The grant-in-aid program overall was under budget by \$280,000. The fire companies' BLS grant, which is on a reimbursable basis, was less than anticipated. Also, we spent more on the open space program, using funds reserved from prior years.

Capital Asset and Debt Administration

Capital Assets

As per the chart below, capital assets (net of depreciation) are valued at \$379 million as of June 30, 2008. Note D, on pages 43 and 44, includes additional information.

SUSSEX COUNTY'S CAPITAL ASSETS

The following are highlights of the major governmental activities capital projects done in fiscal year 2008.

- ▶ \$4 million was spent on land purchased for landfill buffers, airport expansion and building expansion.
- ▶ \$2 million spent on library expansion projects.
- \$2 million was spent on airport and industrial park improvements like fire protection, stormwater management and runway expansion projects.

Sewer fund asset additions also include \$8 million of sewer infrastructure that was paid for by developers and donated to the County for new developments within County sewer districts. This includes collection lines, pumping equipment, and force mains.

The following are highlights of the major capital sewer projects underway during fiscal year 2008, which will expand the County's sewer system to serve more residents and protect the environment.

- Many environmental studies and sewer boundary extensions were done in fiscal year 2008.
- The South Coastal Regional Wastewater Treatment Facility continued with expansion during fiscal year 2008. A construction project of over \$20 million will expand the capacity of the plant from 6 million gallons per day to 9 million gallons per day of average daily flow. This project will also upgrade the plant, which was constructed in 1976 and upgraded in 1988. This project

also includes construction of personnel offices and work areas. This will be done in fiscal year 2008.

- Construction work was underway during the year for the Millville Sewer project, a major Route 54 Improvement project and rebuild of a pump station.
- Angola Neck, Johnson's Corner and the Oak Orchard expansion areas are in the preliminary sewer planning phase. It is estimated that central sewer will become available in three to five years in these three areas.

Long-term Debt

As of June 30, 2008, the County had \$162 million in outstanding bonds payable. Of this amount, \$24 million was backed by specific sewer district revenues. The remaining \$138 million of debt is backed by the full faith and credit of the Sussex County Government, although revenues from sewer and water districts are being used to pay the debt service for this debt. This debt was solely used to fund business-type water and sewer activities. There is no general fund bonded debt.

SUSSEX COUNTY'S OUTSTANDING DEBT

During fiscal year 2003, Standard & Poor's raised its rating for Sussex County by two rating classifications. On December 5, 2002, Standard & Poor's upgraded the County's rating to AA from A+, "reflecting strong residential tax base growth and increasingly strong fund balances". Previously, on February 11, 2000, Moody's Investors Service had raised its rating for Sussex County from A1 to Aa3. Per Standard & Poor's, "the upgrade also reflects a modest, but diverse, local economy". They also noted, "consistently strong financial performance and management continuity; and low debt levels due to self-supporting utilities and a very manageable capital improvement plan".

Also during the year, \$3.8 million in funds were borrowed from the State of Delaware Revolving Fund Loan Program for the South Ocean View Sewer district. This is a 30-year loan at 1.5 percent. For the Millville Sewer District, \$1.3 million was borrowed as part of an \$8 million State of Delaware Revolving Fund Loan, which is a 30 year loan at 1.5 percent interest.

State of Delaware statutes limit the amount of general obligation debt that Sussex County can issue to 12 percent of its total assessed valuation. As of June 30, 2008, there was \$201,931,103 remaining as available general obligation debt margin.

Additional information is included in note "H" on pages 50 through 55 of the report.

Economic Factors in Next Year's Budgets and Rates

Economic Factors

The 2008 budget committee tried hard to forecast or anticipate the effect of the housing market decline on our budget. Those related fees had been budgeted at lower levels based upon local economic predictions. Major factors such as a rise in energy prices, replacing an aging and experienced workforce and space needs all were considered when preparing the 2008 budget.

- The County's economy is as evidenced by a 4.1 percent unemployment rate as of June 2008. This compares to 4.2 percent for the State of Delaware and 5.5 percent for the United States. Even with the national outlook dim Sussex County is resilient and has not experienced the same housing crash as the other parts of the country.
- The real estate and construction industries began to soften during fiscal year 2006 and continued to decline in fiscal year 2007. Per the U. S. Census Bureau for June 2008, the value of new construction exceeded the total for the rest of the State. Approximately 56 percent of new construction value in that year is occurring in Sussex County. According to the U.S. Census Bureau, the value of new construction in Sussex County exceeds that for the individual states of Rhode Island, South Dakota, Alaska, as well as the District of Columbia.
- Agriculture is a major industry in Sussex County. Sussex County ranks first among all United States counties in poultry and egg sales per the U. S. Department of Agriculture. Four major poultry companies have facilities, or growers, in Sussex County. Corn, soybeans, and other vegetables are also grown in the County. Per the U. S. Department of Agriculture's 2002 Census, Sussex County ranked 36th in the United States for total market value of agriculture products sold, 263rd for value of crops, and 29th for number of vegetable acres harvested, as well as first for the sales value of poultry and eggs. Over 3,000 counties were included in this survey.
- Retail sales is a growing industry in Sussex County with major outlet shopping located on the East Coast corridor. These outlets attract customers from other counties and states. Having no sales tax in the state is also a huge draw for the outlet shoppers. Per a 2002 study by the U. S. Census Bureau, retail sales per capita in Sussex County exceeds that for New Castle and Kent County, Delaware.

Fiscal Year 2009 Budget and Rates

The whole theme of the 2009 budget was balance. The challenge now is to balance the enormous growth we have seen over the years with existing but limited County resources while facing a decrease in our revenue-related fees. The goal of the 2009 budget is to reflect the change in the economy and to continue to provide a strong financial base for the future.

The 2009 General fund budget decreased by over 5 percent, reflecting a realization that revenues were dropping. The County still must provide funding for services such as paramedics, police 911, emergency response, public works, and building code even though our revenue is declining. The number of paramedic calls has increased by 39 percent over the last five years.

The County property tax rate remained at 44.5 cents for the 19th straight year. The County takes pride that this is the seventh consecutive year there will not be any general fund bonded debt.

The fiscal year 2009 Sewer and Water budget for operations, maintenance and debt payments decreased by over 7 percent. The fiscal year 2009 sewer and water budget included no service charge rate increases. The new budget does include increases in sewer system connection charges. These charges are designed to recover costs needed for new expansion from new users. They are one-time charges for new sewer customers. The County's philosophy concerning growth is that new users should pay for growth.

The capital budget program of \$57 million includes \$41 million for water and sewer district expansion and major maintenance projects. New sewer districts are projected to cost \$33 million. The five-year capital improvement plan of \$277 million includes \$215 million for sewer projects and expansions and \$62 million for other projects such as airport expansion, industrial park improvements, County administrative office building, library building expansion, and property acquisition.

As the County submits this financial report we are in a state of uncertainty and challenging times. Tough financial decisions are being made. Sussex County is committed to continuing to provide the best service to our taxpayers while at the same time protect our County assets.

Requests for Information

This Financial Report is designed to provide an overview of Sussex County's finances and provide a meaningful picture of our County. This report is available on the County's website at <u>www.sussexcountyde.gov</u>. Any questions concerning this report, or requests for additional information, should be addressed to:

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS		\$ (4,386,082)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay: (\$ 10,939,887) exceeded depreciation (\$ 2,073,793) in the current period.		8,866,094
The net effect of various transactions involving capital assets (i.e. sales, trade-ir and contributions) is to increase (decrease) net assets.		(78,683)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, as follows: Property taxes Grants	\$ 52,768 341,825	394,593
Capitalized lease proceeds are recognized as financing sources in governmental funds, but are not revenue in the government-wide statement of activities, net of principal payments on capitalized leases.		68,947
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The net change is as follows:		
Compensated absences	(530,777)	
Net pension obligation	1,783,138	
Economic development loans	(172,767)	
Postclosure landfill care costs	(20,000)	1,059,594
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES		\$ 5,924,463

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Sussex County, Delaware (the County) was founded in 1683. Local government is provided by a five member elected County Council. The County principally provides general administrative services; emergency preparedness services; airport services; paramedics; Constitutional Row Offices; zoning; libraries; housing and economic development programs; and sewer and water services.

The County's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America applicable to State and Local governments (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the County has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the County has chosen not to do so. The more significant accounting policies established in GAAP and used by the County are discussed below.

1. <u>Reporting Entity</u>

The accompanying financial statements include various agencies, departments, and offices that are legally controlled by or dependent on the County Council (the primary government). As defined by GASBS No. 14, the County's financial reporting entity is required to consist of all organizations for which the County is financially accountable or for which there is a significant relationship. The County has no component units in its reporting entity. The following do not meet the established criteria for inclusion in the reporting entity and, therefore, are excluded from this report: the towns, school districts and independent libraries within Sussex County.

2. Basic Financial Statements - Government-wide Statements

The County's basic financial statements include both government-wide (reporting the County as a whole) and fund financial statements (reporting the County's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The County's governmental activities consist of: general government; grant-in-aid programs; planning and zoning; paramedic program; emergency preparedness; economic development and public works; county engineer; airport; library; community development and housing programs; and constitutional offices. The County's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns are presented on a consolidated basis by column. The County's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The County utilizes restricted resources to finance qualifying activities, to the extent permitted by laws, regulations, contracts and grants.

The government-wide Statement of Activities reports both the gross and net cost of each of the County's functions and business-type activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. Direct expenses are those that are clearly identifiable with a specific function.

2. <u>Basic Financial Statements - Government-wide Statements - Continued</u>

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, intergovernmental revenues, interest income, etc.). The County does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, engineering, data processing, etc.).

This government-wide focus is more on the sustainability of the County as an entity and the change in the County's net assets resulting from the current year's activities.

3. Basic Financial Statements - Fund Financial Statements

The financial transactions of the County are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the County:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the County:

General fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital projects fund is maintained to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). These funds are provided by intergovernmental grants, investment income, and operating transfers from the General Fund. The projects typically take longer than one year to complete. Capital projects expenditures in fiscal year 2008 were mainly for airport improvement and expansion, a new Emergency Operations Center, library expansion and land purchases. As of June 30, 2008, the major projects being planned over the next few years include \$ 10.1 million for airport improvement and expansion, \$ 12.0 million for a new County administrative building, and \$ 3.5 million for property acquisition.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Proprietary funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The following is a description of the proprietary funds of the County:

3. Basic Financial Statements - Fund Financial Statements - Continued

Enterprise funds are used to account for the provision of water and sewer services to customers in the County's Water and Sewer Districts. For presentation purposes, the major funds of Bethany Sewer Fund, Treatment Plant - SCRWF and West Rehoboth Sewer Fund have been presented as separate funds. However, West Rehoboth is actually an extension of the Dewey Sewer District. Activities of the enterprise funds include administration, operations and maintenance of the water and sewer system, and billing and collection activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for providing services. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting the above criteria are reported as non-operating revenues and expenses.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support County programs. The reporting focus is on net assets and changes in net assets, reported using accounting principles similar to proprietary funds. The Pension Trust Fund is used to account for the assets of the Sussex County Employee Pension Plan, which is part of the County's legal entity. It is a single employer defined benefit pension plan that provides benefits to eligible County employees. A standalone report is not issued for the Plan. The Post-retirement Employee Benefit Trust Fund is used to account for the assets of the Sussex County Post-retirement Employee Benefit Plan, which is part of the County's legal entity. It is a single employee for the Sussex County Post-retirement Employee Benefit Plan, which is part of the County's legal entity. A stand-alone report is not issued for the Plan.

The County's fiduciary funds are presented in the fiduciary funds financial statements. Combining financial statements for the fiduciary funds are presented in Note E to the financial statements. Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Major and Nonmajor Funds

The funds of the financial reporting entity are further classified as major or nonmajor. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASBS No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The County electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements.

4. Measurement Focus and Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Government-wide financial statements measure and report all assets (both financial and capital), liabilities, revenues, expenses, gains and losses using the economic resources measurement focus and the accrual basis of accounting, as do the proprietary and fiduciary fund statements. Revenues are recognized when earned and expenses are recognized when incurred.

All governmental funds are accounted for using a current financial resources measurement focus and are reported on the modified accrual basis of accounting. Revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period that, for the County's purposes, is considered to be within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

5. Cash and Cash Equivalents

The County has defined cash and cash equivalents to include cash on hand, demand deposits and all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased.

Restricted cash mainly consists of amounts held by the County for the proceeds from grant programs, property sales, Constitutional Row Offices, 911 emergency reporting, realty transfer tax, fire service fee and various sewer system reserves and construction funds.

6. Investments

The enterprise fund investments that have a remaining maturity at time of purchase of one year or less are reported at amortized cost. All other investments are stated at fair value. Fair values are determined by quoted market prices, where available. Restricted investments represent amounts held by the County for sewer fund construction and debt service, and for revenue bond required reserves. Information is not available concerning the indirect use of derivatives through the mutual funds and investment pools.

7. Accounts Receivable

Accounts receivable are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

8. Inventory

Inventories are valued at cost using first-in, first-out (FIFO) or market and represent supplies owned by the County. The costs of these inventories are recorded as expenditures when consumed.

9. Capital Assets

Capital assets purchased or acquired with an original cost of \$ 3,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	10 - 50 years
Improvements	5 - 50 years
Equipment	5 - 20 years
Infrastructure	10 - 50 years

The County's governmental activities infrastructure consists mainly of parking lots, airport aprons and airport runways.

10. Bond Premiums, Discounts and Issuance Costs

Bond premiums, discounts and issuance costs for proprietary funds are deferred and amortized over the term of the bonds, which range from one to forty years, using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

11. Deposits and Deferred Revenue

Deposits represent monies held by the County to be remitted to others. Deferred revenue represents monies held by the County to be recognized as revenue in future periods.

12. Interest Capitalization

Interest costs incurred by a proprietary fund for the acquisition and/or construction of capital assets are subject to capitalization. The interest capitalization period begins when the following conditions are present:

- a. Expenditures for the capital asset have been made.
- b. Activities that are necessary to get the capital asset ready for its intended use are in progress.
- c. Interest cost is being incurred.

The amount of interest cost to be capitalized is based on the weighted-average amount of accumulated expenditures for the period multiplied by the proprietary fund's interest rate for the obligation incurred specifically to finance the construction of the capital asset. During fiscal 2008, Proprietary Fund interest expense is net of \$ 341,371 of capitalized interest.

13. Compensated Absences

Employees are granted vacation and sick leave in varying amounts. In the event of termination or retirement, an employee is reimbursed for accumulated vacation days up to two times their yearly vacation and, for sick days, up to a maximum of 90 days. The proprietary funds of the County accrue accumulated unpaid vacation and sick leave when earned (or estimated to be earned) by the employee. Compensated absences for governmental funds are a reconciling item between the fund and government-wide presentations.

14. Equity Classifications

Government-wide Statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net assets Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved. Reserved is further split between encumbrances, inventories and prepaid expenses, non-current assets and amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Unrestricted is further split between designated and undesignated. Designations of fund balance represent tentative management plans that are subject to change. Proprietary fund equity is classified the same as in the government-wide statements.

Equity reservations and restrictions for grant funds, debt service and realty transfer tax are enforced by outside source enabling legislation. All other equity reservations and restrictions are enforced by the Sussex County code.

15. <u>Revenues</u>

Those revenues susceptible to accrual are property taxes, special assessments, interest revenue and charges for services, intergovernmental, and miscellaneous. All other revenue items are considered to be measurable and available only when cash is received by the County. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue based on GASBS No. 33. In applying GASBS No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

Program revenues include: charges to customers for goods, services or privileges provided, operating grants and contributions, and capital grants and contributions. General revenues include all taxes.

The County's property tax year runs from May 1 to April 30. Property taxes are recorded and attached as an enforceable lien on property on May 1, the date levied. Taxes are payable under the following terms: July 1 through September 30, face amount; after September 30, a 1.5% penalty per month is charged on the unpaid balance due. Property taxes are recognized as revenue in the budget year (beginning July 1 after the levy date) for which they are levied.

16. Expenditures

Expenditures are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

17. Interfund Activity

Interfund activity is reported as either loans, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

18. Budgets and Budgetary Accounting

Prior to March 1, the County Administrator, in conjunction with the Director of Finance and the Director of Accounting, distributes budget request forms to each department and agency. The budget must identify the specific level of service provision and describe how priorities have been established and incorporated into the budget. These budgets are prepared by April 1. The County Administrator, with the assistance of the Director of Finance and Director of Accounting, then develop an annual operating budget, using these department budgets to evaluate the priority and costs of various services. The recommended annual operating budget is then presented to Council by the County Administrator. This submission includes proposed operating budget ordinances setting forth the proposed departmental appropriations and various tax rates to balance the budget. The Council reviews the budget both internally and through public hearings. Subsequently, the budget is adopted through legislation in Council prior to July 1. The operating budget ordinances are officially adopted when approved by the County Council. The County legally adopts an annual budget for the general fund and the capital projects fund.

Appropriations are legislated at the departmental level by object of expenditure. Although the County Code requires budget amendments to be adopted using the same procedures as its original adoption, the Council has authorized the County Administrator to make budgetary transfers within each fund. The aggregate amount of the budget cannot be changed without a public hearing. All unused and unencumbered annual appropriations lapse at fiscal year-end.

The budgets for the County's general fund and capital projects fund have been prepared on a basis materially consistent with generally accepted accounting principles (GAAP). Final budgeted amounts are as amended through June 30, 2008. Unexpended appropriations in the operating budget lapse at year end, while encumbered amounts are reappropriated in the subsequent year.

19. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

20. Explanation of Reconciling Item on the Governmental Fund Balance Sheet

The governmental fund balance sheet includes a reconciliation between fund balances - total governmental funds and net assets of governmental activities as reported in the government-wide statement of net assets. The details of the difference "Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds" are as follows:

Economic development loan receivables	\$ 226,104
Net pension asset	9,646,359
Deferred tax revenue	733,025
Deferred other revenue	 2,108,261
Net Adjustment to Increase Net Assets	\$ 12,713,749

NOTE B - CASH AND INVESTMENTS

All deposits are in various financial institutions and are carried at cost. Transactions are made directly with the banks; services of brokers or securities dealers are not used. At June 30, 2008, the carrying amount of the County's deposits was \$ 150,648,064 and the bank balance was \$ 153,524,548, of which \$ 44,187 was uninsured and uncollateralized.

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. In regards to investments, custodial credit risk is in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The County's investment policy requires collateralization by each financial institution with direct obligations of the U.S. government and requires the collateral to be maintained at a third party.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the County's investment. The County's primary objective of its investment activities is the safety of principal in order to mitigate interest rate risk. The County's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments in U.S. government securities earn interest at a stated fixed rate and are normally held until maturity when the full principal and interest is paid to the County.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's investment policy stresses safety of principal as investments are made with judgment and care. U.S. government securities are not considered to have credit risk and, therefore, their credit risk is not disclosed. Investments issued by Federal Home Loan Bank and Federal Home Loan Mortgage Corporation have an AAA credit rating at year end. The County does not have any other investments that are credit quality rated.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The County has no formal policy to address the concentration of credit risk attributed to a single issuer. More than 5 percent of the County's investments are in the following issuers (other than those issued or guaranteed by the U.S. government, investments in mutual funds and external investment pools): Wilmington Trust repurchase agreements (11.3%).

NOTE B - CASH AND INVESTMENTS - CONTINUED

The County's investment policy authorizes the following investments:

- 1. Bonds or other obligations of which the faith and credit of the United States of America are pledged;
- 2. Obligations of federal governmental agencies issued pursuant to Acts of Congress;
- 3. Repurchase agreements that are secured by any bond or other obligation for the payment of which the faith and credit of the United States are pledged;
- 4. Certificates of deposit and other evidences of deposit of financial institutions;
- 5. Money market mutual funds regulated by the Securities and Exchange Commission and whose portfolios consist of dollar-denominated securities; and
- 6. Local government investment pools administered by the State of Delaware. Additional information can be found in Note E sections for Pension Trust Assets and Post-retirement Employee Benefit Trust Assets.

The County had the following investments at June 30, 2008:

	Investment Maturities (in Years)								
Investment Type	_	Fair Value	Less than 1		1 - 5		6 - 10	Mo	re than 10

Sewer	 8,903,562
Total business-type activities depreciation expense	\$ 9,008,892

NOTE E - PENSION AND OTHER POST-RETIREMENT EMPLOYEE BENEFIT TRUSTS

Basis of Accounting

The pension and other post-retirement employee benefit (OPEB) trusts use the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans. Administrative costs are financed through investment earnings.

Pension Plan Description and Provisions

The County established and administers a single-employer defined benefit pension plan for its employees. The Plan provides for retirement, disability and death benefits to plan members and their beneficiaries. Employees are not required to contribute to the plan. The pension plan is reported in the pension trust fiduciary fund in the County's financial statements. The County does not have a separate GAAP-basis pension plan audit performed. A covered employee is an employee who receives a regular salary or wages wholly, or in part, directly, or indirectly, from Sussex County provided, however, that an employee shall not be considered in covered employment if they are a part-time or seasonal employee who is not regularly employed for more than 120 working days in any one calendar year, per Ordinance No. 19, 6/10/75; No. 52, 12/16/80; No. 73, 9/22/81; No. 190, 7/24/84; No. 281, 7/23/85; No. 318, 11/12/85; No. 359, 3/25/86; No. 1375, 6/6/00 and No. 1485, 7/1/01. Also covered are elected officials, Justices of the Peace, and Constables for time worked prior to March 31, 1965. Cost-of-living adjustments (COLA) are provided at the discretion of the County Council. The County has authority to establish and amend benefit provisions of the plan.

To be eligible for retirement benefits, a covered employee who shall have service with Sussex County in continuous employment for at least eight years shall be considered eligible for retirement benefits within the meaning of this Ordinance, except as otherwise provided. The age for normal retirement is 62 with eight years of service, 60 for early retirement with 15 years of service, or after 30 years of service regardless of age, for most employees. Effective June 6, 2000, the number of years of service for normal retirement is 25 for paramedic and emergency communication specialists. For the year ended June 30, 2008, total payroll was \$ 21,929,597. Covered payroll refers to all compensation by the County to active employees covered by the plan.

Current membership in the plan (as of January 1, 2008) is as follows:

Vested Actives	Nonvested Actives	Total Actives	Retirees and Beneficiaries	Terminated Vested	 Covered Payroll
241	291	532	121	66	\$ 20,222,895

Pension Funding Policy and Actuarial Method and Assumptions

The County's annual contribution to the pension trust is determined through the budgetary process and with reference to actuarial determined contributions. Plan members are not required to contribute. Contributions made were 18 percent of covered payroll. The contribution is designed to accumulate sufficient assets to pay benefits when due. The actuarial valuation of the plan as of January 1, 2008 was determined using the projected unit credit actuarial cost method. This measure is independent of the funding method used to determine contributions to the system. The actuarial assumptions include:

- A rate of return on the investment of present and future assets of 8 percent per year compounded annually.
- Projected salary increases of 5 percent per year compounded annually.
- The assumption that benefits will increase 2 percent annually after retirement for cost of living increases.
- Inflation of 4 percent per year underlying the salary scale and interest rates.
- Five-year phase-in of asset gains and losses is used to value assets.

Actuarial calculations reflect a long-term perspective and actuarial methods and assumptions include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. A thirty-year open level percentage method is used to amortize the Annual Required Contribution and an adjustment to the Annual Required Contribution.

Annual Pension Cost and Net Pension Obligation

The County's annual pension cost and net pension obligation (asset) for the current year were as follows:

Annual required contribution	\$ 1,813,939
Interest on net pension obligation	(786,322)
Adjustment to annual required contribution	 478,580
Annual Pension Cost	1,506,197
Contributions made	 (3,735,118)
Increase in Net Pension Asset	(2,228,921)
Net Pension Obligation (Asset), Beginning of Year	 (9,829,026)
Net Pension Obligation (Asset), End of Year	\$ <u>(1</u> 2,057,947)

Trend information is as follows:

Year Ended June 30,	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation (Asset)
2006	\$ 1,755,398	258.3 %	\$ (8,684,058)
2007	1,924,133	159.5	(9,829,026)
2008	1,506,197	247.9	(12,057,947)

Pension Funded Status and Funding Progress

As of January 1, 2008, the most recent actuarial valuation date, the plan was 97.8% funded. The actuarial accrued liability for benefits was \$ 46.1 million, and the actuarial value of assets was \$ 45.1 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$ 1 million. The covered payroll (annual payroll of active employees covered by the plan) was \$ 20.2 million, and the ratio of the UAAL to the covered payroll was 5.1%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The pension plan was funded with contributions as follows:

Fiscal Year	Amount	Fiscal Year	Amount
1976	\$ 75,000	1995	\$ 1,040,285
1982	50,000	1996	1,175,078
1983	150,000	1997	1,157,975
1984	80,995	1998	896,732
1985	100,000	1999	881,820
1986	234,000	2000	1,946,139
1987	419,532	2001	1,440,572
1988	484,224	2002	1,544,934
1989	182,262	2003	2,034,321
1990	342,739	2004	2,670,566
1991	355,582	2005	3,338,208
1992	463,552	2006	4,590,808
1993	890,882	2007	3,273,371
1994	950,736	2008	3,840,278

Pension Trust Assets

The pension trust funds are invested in U.S. Treasury Notes, U.S. Government Agency Notes and Bonds, Sussex County Second Lien Revenue Bonds, the Delaware Local Government Retirement Investment Pool (DELRIP), Wilmington Trust Company (WTC) mutual funds, and Fidelity Investments mutual funds. Wilmington Trust Company is the trustee of the Plan. DELRIP was established to allow local governments the option to pool their pension assets with the Delaware Public Employees' Retirement System (DPERS). DELRIP is in the custody of the Delaware Board of Pension Trustees and is subject to oversight of the DPERS' Investment Committee and not of the Securities and Exchange Commission (SEC). The WTC mutual funds are in the custody of the Wilmington Trust Company. The DELRIP investments are stated at fair value, which is the same as the value of the DPERS' Master Trust shares. Further details of the DELRIP investments are disclosed in the DPERS 37th Comprehensive Annual Financial Report, which may be obtained by calling 1-800-722-7300.

Investments at fair value (other than those issued or guaranteed by the U.S. government) in excess of 5% of the Plan's net assets held in trust for pension benefits at June 30, 2008 consist of:

	Fair Value	
Delaware Local Retirement Investment Pool Wilmington Multi-Manager International	\$	28,324,305 2,604,496
TOTAL	<u>\$</u>	30,928,801

Post-retirement Employee Benefit Plan Description and Provisions

The County provides post-retirement health care benefits. During fiscal year 2005, the County established the "Sussex County Employment Benefit Plan" by Ordinance No. 1783. The plan is reported in the pension and other employee benefit trusts in the County's financial statements. Benefits include preventive care, prescription drug care, facility charges, professional services and office visits. The County has the authority to establish and amend benefit provisions of the plan. For employees who begin employment with the County prior to July 1, 2001, the County policy is to provide post-retirement healthcare benefits immediately after they leave County employment if they receive a pension at that time. Retirees hired subsequent to June 30, 2001, with 15 to 24 years of service, are eligible for coverage upon receipt of a County pension, with the County paying 50 percent of the premium. Retirees hired subsequent to June 30, 2001, with at least 25 years of service, receive full post-retirement healthcare benefits when they receive their pension. Employees, who began work prior to July 1, 2001, may elect the coverage available as if hired after June 30, 2001.

Current membership in the plan (as of January 1, 2008) is as follows:

Total Actives_	Retirees and Beneficiaries	Terminated Vested	
532	126	23	

Post-retirement Employee Benefit Plan Funding Policy and Actuarial Method and Assumptions

The County's annual contribution to the post-retirement employee benefit plan is determined through the budgetary process and with reference to actuarial determined contributions. Plan members are not required to contribute. Contributions made of \$ 5,784,797 were 29 percent of covered payroll. The contribution is designed to accumulate sufficient assets to pay benefits when due. The actuarial valuation of the plan as of January 1, 2008 was determined using the projected unit credit actuarial cost method. This measure is independent of the funding method used to determine contributions to the system. The actuarial assumptions include:

- Assumes an investment return of 8% compounded annually.
- Projected salary increases of 5 percent per year compounded annually.
- The assumption that 100% of actives and 50% of eligible vested terminated participants elect coverage upon retirement.
- A health care cost trend rate of 11% initially, declining to 5% ultimately.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation. Actuarial calculations reflect a long-term perspective and actuarial methods and assumptions include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term prospective of the calculations. A thirty-year open level percentage method is used to amortize the Annual Required Contribution and an adjustment to the Annual Required Contribution.

Post-retirement Employee Benefit Plan Funded Status and Funding Progress

As of January 1, 2008, the most recent actuarial valuation date, the plan was 38.3% funded. The actuarial accrued liability for benefits was \$ 40.2 million, and the actuarial value of assets was \$ 15.4 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$ 24.8 million. The covered payroll (annual payroll of active employees covered by the plan) was \$ 20.2 million, and the ratio of the UAAL to the covered payroll was 122.6%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Post-retirement Employee Benefit Trust Assets

The post-retirement employee benefit trust funds are invested in the Delaware Local Government OPEB Pool. The OPEB Pool was established to allow local governments the option to pool their other post-retirement employee benefit assets. The DPERS Board serves as the trustees and is responsible for the financial management of this pool. It is subject to oversight of the DPERS' Investment Committee and not of the Securities and Exchange Commission (SEC). The investments are stated at fair value, which is the same as the value of the DPERS' Master Trust shares. Further details of the investments are disclosed in the State of Delaware's Comprehensive Annual Financial Report.

In August 2004, the GASB issued GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions* ("GASB 45"), which establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets) note disclosures, and if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers. The County will implement GASB 45 in fiscal year 2009. The net OPEB obligation will be recorded as a liability on the statement of net assets. The obligation totaled approximately \$ 2 million at July 1, 2008.

NOTE F - DEFERRED COMPENSATION PLAN

The County offiers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional and participants elect how their salary deferrals are invested. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The County is not matching employee contributions. Under custodial agreements, the custodians hold all assets and income in trust for the exclusive benefit of participants and their beneficiaries.

NOTE G - SHORT-TERM DEBT

Short-term financing is obtained from banks to provide interim financing for the Enterprise Funds. Interest on the line of credit is variable; the interest rate was 3.2% at June 30, 2008. The County had \$ 24,807,461 of unused line of credit to be drawn upon as needed. Short-term debt activity for the year ended June 30, 2008, was as follows:

	_June 30, 2007		Additions	Additions Reductions		June 30, 2008	
Notes payable	\$	472,024	<u>\$</u>	\$	279,485	<u>\$</u>	192,539

NOTE H - LONG-TERM LIABILITIES

Description of Bonds Payable

At June 30, 2008, bonds payable consisted of the following individual issues:

	B	usiness-type
1994 wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through December 20, 2034, interest at 4.5%.	\$	8,579,770
1994 SRF Subordinate Obligations (West Rehoboth Phase I and II); interest at 1.5%, final payment due December 2016. Repayment over 21 years beginning December 1995 from gross revenues of the West Rehoboth Expansion of the Dewey Beach Sanitary Sewer District but on a subordinate basis for the first 13 years to operations and management expenses, 1994 Series Bonds (\$ 19 million), Rural Development Administration loan, other project borrowings and SRF loans. Repayment the last 7 years based on equal installments. The subordinate obligations require various construction, operating and depreciation accounts.		7,370,471
1995A wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through March 9, 2035, interest at 4.5%.		3,126,481
1995B wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through June 27, 2035, interest at 4.5%.		5,718,593
1995C wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through September 26, 2035, interest at 4.5%.		5,223,114
1995D wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through December 22, 2035, interest at 4.5%.		2,623,840

Description of Bonds Payable - Continued

	Business-type
1996 wastewater general obligation bonds (Ocean Way Estates expansion sewer system), due in quarterly installments of \$ 6,256 principal and interest, interest at 4.5%, final payment due October 17, 2036.	\$ 400,604

2001 wastewater general obligation bonds (West Rehoboth expansion sewer system), due in quarterly installments of \$ 135,087 principal and interest, interest at 4.5%, final payment due June 1, 2041.	9,260,084
2002 wastewater general obligation bonds (Miller Creek Sanitary Sewer District), due in semi-annual installments, interest at 1.5%, final payment due December 31, 2027. Total bonds authorized are \$ 3,300,000.	2,237,461
2002 wastewater general obligation bonds (Bayview Estates and Sea Country Estates Sanitary Sewer District), due in semi-annual installments, interest at 1.5%, final payment due December 31, 2025. Total bonds authorized are \$ 2,636,000.	2,515,127
2002 wastewater general obligation bonds (SCRWF), due in semi- annual installments, interest at 3.175%, final payment due December 31, 2026. Total bonds authorized are \$ 13,000,000.	12,283,657
2002 wastewater general obligation bonds (Ellendale), due in semi-annual installments, no stated interest rate, final payment due June 13, 2042. Total bonds authorized are \$ 1,000,000.	871,795
2003 wastewater general obligation bonds (Oak Orchard Sanitary Sewer District), due in semi-annual installments, interest at 2%, final payment due December 31, 2024. Total bonds authorized are \$ 1,500,000.	1,390,900
2003 wastewater general obligation bonds (1992 and 1993 refunding), due in semi- annual installments, interest ranging from 4% to 5%, final payment due October 15, 2032.	26,655,002
2003 wastewater general obligation bonds (Ellendale), due in quarterly installments, interest at 4.25%, final payment due September 25, 2043. Total bonds authorized are \$ 815,000.	773,962

Description of Bonds Payable - Continued

	Business-type
2003 wastewater general obligation bonds (Ellendale), due in quarterly installments, interest 4.25%, final payment due September 25, 2043. Total bonds authorized are \$ 1,250,000.	\$ 1,187,066
2003 wastewater general obligation bonds (SCRWF), due in quarterly installments, interest 4.25%, final payment due September 19, 2043. Total bonds authorized are \$ 1,965,000.	1,866,082
2003 wastewater general obligation bonds (Oak Orchard), due in semi-annual installments, interest 1.5%, final payment due December 31, 2026. Total bonds authorized are \$ 1,203,000.	1,200,900
2004 wastewater general obligation bonds (Cedar Neck), due in quarterly installments, interest at 4.375%, final payment due June 22, 2044. Total bonds authorized are \$ 6,910,700.	6,630,517
2004 wastewater general obligation bonds (Inland Bays), due in semi-annual installments, interest 1.5%, final payment due December 31, 2027. Total bonds authorized are \$ 16,000,000.	10,000,000
2005 wastewater general obligation bonds (Inland Bays), due in quarterly installments, interest 4.125%, final payment due July 21, 2045. Total bonds authorized are \$ 7,000,000.	6,799,085
2005 wastewater revenue refunding bonds (West Rehoboth 1995 refunding), due in semi-annual installments through June 15, 2025, interest ranging from 3.5% to 4.5%. The bonds are secured by and payable solely from the gross revenues of the West Rehoboth expansion sewer system. The revenue bonds require various project, construction, operating and depreciation accounts.	16,635,000
2006 wastewater general obligation bonds (Millville), due in semi-annual installments, interest 1.5%, final payment due October 30, 2040. Total bonds authorized are \$ 8,000,000.	3,032,936
2006 wastewater general obligation bonds (South Ocean View), due in semi-annual installments, interest 1.5%, final payment due December 31, 2038. Total bonds authorized are \$ 4,800,000.	3,757,397
Subtotal Unamortized bond premium Unamortized bond discount Deferred amount on refunding, net of amortization	161,824,663 850,462 (21,540) (3,017,703)
TOTAL BONDS PAYABLE	<u>\$ 159,635,882</u>

Deferred amount on refunding is the difference between the reacquisition price and the net carrying amount of the refunded debt, net of amortization. This difference is reported in the accompanying financial statements as a deduction from bonds payable. Amortization of deferred amount on refunding charged to interest expense totaled \$ 202,070 for fiscal year 2008.

Contract Commitments

The County has obligated itself under contracts for various projects. At June 30, 2008, the obligated unpaid amount was approximately \$ 22,237,417. The County's payment of these contracts will be contingent upon the contractors' satisfactory performance.

Bonds Authorized but Unissued

Bonds authorized but unissued at June 30, 2008 totaled \$ 36,940,306. The bonds are to finance various sewer district construction and improvement projects. Subsequent to year end, the County approved the issuance of \$ 28,500,000 general obligation bonds to finance the Angola Neck Sewer District and \$ 625,000 general obligation bonds to finance the Golf Village Sewer District.

Long-term Liability Activity

Long-term liability activity for the year ended June 30, 2008, was as follows:

TOTAL	\$ 24,005,471	\$ 7,494,876	\$ 31,500,347					

Capital Lease Obligations

The County leases equipment under three to five year lease purchase agreements. Monthly lease payments range from \$ 43 to \$ 477, and expire from August 17, 2008 through May 1, 2011. Equipment with a cost basis of \$ 257,977 and accumulated depreciation of \$ 80,555 was being leased at June 30, 2008. Depreciation of assets under capital leases is included in depreciation expense under government-wide reporting. Obligations under governmental activities capital leases are as follows:

	Year ending June 30,	Governmental Activities			
2009		\$	69,062		
2010			51,267		
2011			16,258		
	PRESENT VALUE OF MINIMUM LEASE PAYMENTS	\$	136,587		

NOTE I - INTERFUND BALANCES

Interfund balances at June 30, 2008 consisted of the following:

Receivable Fund	Payable Fund	Total Amount	Long-term Amount		
General fund Bethany sewer fund West Rehoboth sewer fund Treatment plant - SCRWF Nonmajor enterprise funds Capital projects fund		\$ 3,910,121 135,430 7,463,700 12,358,310 351,250 24,218,811	\$ 3,886,828 7,314,778 6,639,420 321,476 18,162,502		
Bethany sewer fund	Treatment plant - SCRWF	41,863	41,863		
Nonmajor enterprise funds	Treatment plant - SCRWF	98,622	41,863		
Treatment plant - SCRWF	t plant - SCRWF West Rehoboth sewer fund Nonmajor enterprise funds Capital projects fund		- - -		
TOTAL		1,071,246 \$ 25,430,542	\$ 18,204,365		

Balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. At June 30, 2008, interfund balances largely represented interim financing for sewer projects, which are to be repaid when the County draws the permanent funding. The long-term portion indicated above is not scheduled to be collected in the subsequent year.

NOTE J - INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2008, consisted of the following:

	Transfer from								
Transfer to:	General Fund		Nonmajor Funds		West Rehoboth Sewer		Total		
General fund	\$	-	\$	106,574	\$	-	\$\$	106,574	
Capital projects fund		4,194,721		-		-		4,194,721	
Bethany sewer fund		87,108		-		-		87,108	
West Rehoboth sewer fund		235,682		-		-		235,682	
Nonmajor enterprise funds		2,327,139		-		180,242		2,507,381	
TOTAL	\$	6,844,650	\$	106,574	\$	180,242	\$	7,131,466	

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and to (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE K - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; omissions; injuries to employees; and natural disasters for which the County carries commercial insurance. There have been no significant reductions in coverage from the prior year end. Settlements have not exceeded coverage in the past three years.

The County is exposed to the risk of loss related to employee medical expenses. During fiscal year 2008, the County maintained a self-insured plan for employee medical expenses in which expenses per employee were covered annually up to \$ 250,000. Individual excess expenses are covered under a commercial policy. In addition, the County has a maximum aggregate limit of \$ 10,206,011 for the County's portion of medical expense liability, which is covered under a commercial policy. The County reports the risk management activity in the General Fund. The County recognizes expenditures/expenses in the General Fund, Water Fund and Sewer Funds. The employee health plan is administered by an outside agency.

Employee Health Plan

Contributions from the County and employee withholdings are deposited into a reserve fund to pay prior-year and current-year claims. Estimated risks and losses are based upon historical costs, financial analyses and estimated effects of plan changes. The claims liability reported at June 30, 2008 is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported. Changes in the employee health claims liability amounts in fiscal year 2008 and 2007 were as follows:

	ginning of ar Balance	Current-Year Claims andChanges in Estimates		Cla	ims Payments	End of Year Balance	
2006 - 2007 2007 - 2008	\$ 760,874 778,265	\$	6,838,145 7,598,575	\$	(6,820,754) (7,855,482)	\$	778,265 521,358

NOTE L - PROPRIETARY FUNDS CONTRACTS

The County has a contract with the Town of Georgetown for the Town to provide wastewater treatment and disposal for the County's Ellendale Sewer Treatment System. The contract was executed on May 25, 2000 and is in effect for a period of 40 years unless both parties mutually agree to terminate the contract. The County has a contract with the City of Seaford for the purpose of discharging wastewater. The contract is in effect on January 1, 2004 for 10 years with an option to renew for an additional 10 years.

NOTE M -LANDFILL POSTCLOSURE CARE COST

State and federal laws and regulations required the County to place a final cover on its six landfill sites when it stopped accepting waste and to perform certain maintenance and monitoring functions at these sites. The estimated liability for landfill postclosure care of \$ 4,618,000 at June 30, 2008 represented the cumulative amount reported to date based on the use of 100 percent of the estimated capacity of the landfill. This amount is based on what it would cost to perform all postclosure care in 2008. Actual cost may be higher because of inflation changes in technology or changes in regulations.

The annual operating costs for maintenance and monitoring the landfill sites will continue to be funded by the County and recorded as a long-term liability in the governmental activities on the Statement of Net Assets.

NOTE N - RENT REVENUES

The County has entered into several long-term operating leases with local businesses to rent property, mainly located in the County's Industrial Park and Airport. These leases range in terms of one year to forty-five years and several of them are noncancelable. Buildings with a cost basis of \$ 6,513,392 and accumulated depreciation of \$ 841,017, equipment with a cost basis of \$ 55,058 and accumulated depreciation of \$ 55,058 and improvements of \$ 69,207 and accumulated depreciation of \$ 7,792 were being leased as of June 30, 2008.

The minimum future rental revenue under leases as of June 30, 2008 for each of the next five years and in the aggregate are:

Year ending June 30,	Amount		
2009	\$	591,411	
2010		550,698	
2011		526,233	
2012		451,576	
2013		427,308	
Thereafter		3,483,038	
MINIMUM LEASE PAYMENTS RECEIVABLE	\$	6,030,264	

NOTE O - CONTINGENCIES

The County is currently involved in a number of lawsuits involving construction projects, zoning ordinances, and other civil lawsuits. The amount of any contingent liability related to these suits either cannot be estimated or the outcome is uncertain.

The County has authorized the issuance of revenue bonds to provide funds for various commercial, industrial and agricultural development projects. In the opinion of bond counsel, the bonds are not subject to the debt limit imposed on the County by the Delaware Code, and are payable solely from payments made by the borrowing entities. Accordingly, these bonds are not reflected in the accompanying financial statements.

NOTE P - ECONOMIC DEVELOPMENT LOANS

Under the County's Local Government Economic Development Stimulus Loan Program, loans are provided for certain public projects and for economic development and job growth purposes. The balance outstanding was \$ 226,104 at June 30, 2008, which is not reflected on the governmental funds balance sheet. The loan bears interest at 1% per annum. The loan is subject to repayment with a maturity date of April 2017 and the full faith and credit of the municipality secures the loan.

NOTE Q - SUBSEQUENT EVENTS

Major Contracts

Subsequent to June 30, 2008, the County has approved the award of contracts totaling \$ 2.8 million for the Millville expansion of the Bethany Beach Sanitary Sewer District. The County also purchased land for \$ 2.4 million to be used in the future for a new administration building.

Pension and Other Employee Benefit Trusts

The County invests in various investment securities for its pension and other employee benefit trusts. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Therefore, the value, liquidity, and related income of the securities are sensitive to changes in economic conditions, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the users and changes in interest rates. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the County's account balances and the amounts reported in the statement of net assets held in trust for pension and other employee benefits.

STATISTICAL SECTION

STATISTICAL SECTION

This part of Sussex County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.	
<u>Contents</u>	Pages
Financial Trends	96 - 100
These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	
Revenue Capacity These schedules contain information to help the reader assess the factors affecting the County's ability to generate its property taxes.	101 - 104
Debt Capacity These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	105 - 108
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time with other governments.	109 - 110
Operating Information	111 - 113
These schedules contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.	
Bonded Debt Information	114 - 164
These schedules contain information about the County's principal and interest payments on bonded debt outstanding at the fiscal year end.	
Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented	

GASB Statement Number 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Notes:

1. Assessed values reflect the values utilized for initial property tax billings for each fiscal year, which are based on the May 1 assessments.

2. Real property is appraised based on 1973 market values.

3. The assessed value is 50% of the appraised value.

4. Assessed value ratio estimates were developed by the University of Delaware.

5. Assessed values are based on taxable assessments.

Sources: Sussex County Assessment Division and University of Delaware.

Notes:

- 1. Operating expenses do not include depreciation or interest expense, as per the bond indenture.
- 2. Utility service charges do not include capitalization fees, or capital contributions.
- 3. Debt service requirement reflects minimum amounts due for revenue bonds. It does not include any debt service amounts for additional bonds which are paid from district funds and are general obligation bonds. It does not include accrued interest. It does not include interest capitalized prior to the initial date of operations, December 29, 1995.
- 4. The coverage requirement per Bond resolutions is 1.25.
- 5. In April 1994, the County issued \$19,000,000 in revenue bonds which were advance refunded in December 1995 by revenue bonds totaling \$20,825,000. In 2006 the County refinanced the December 1995 issue for the Series 2005 revenue bond issue for \$18,500,000.
- 6. In April 1994, the County issued \$13,000,000 and \$4,000,000 in revenue bonds to the State of Delaware program. Debt service for these SRF bonds is based on level debt service payments.
- The West Rehoboth system was under construction during fiscal year 1993, 1994 and 1995 and was placed in service on December 29, 1995. Receipt of revenues began during fiscal year 1996. Debt service paid prior to then was paid from capital funding. Interest was capitalized until fiscal year 1996.
- 8. The following revenue bond issues are included here as part of the debt service requirements:

	Issuance Amount
a. Series 2005 revenue bonds	\$ 18,500,000
b. Subordinated Obligations 1994 SRF-A	13,000,000
c. Subordinated Obligations 1994 SRF-B	4,000,000

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of Sussex County, Delaware (the County). The County's reporting entity is defined in Note A of the notes to basic financial statements. Federal awards that are passed through other governmental agencies are included on the schedule. Matching funds are excluded from the schedule and program income generated from federal grants is classified as federal expenditures when spent.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the accrual and the modified accrual bases of accounting, which are described in Note A of the notes to basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE B - LOANS

The County had the following federal expenditures that have been or will be funded by loans from the U.S. Department of Agriculture and the U.S. Environmental Protection Agency for the year ended June 30, 2008.

Cluster/Program Title	Federal CFDA Number	Loan Amount	
Water and Waste Disposal Systems for Rural Communities	10.760	\$	5,466,424
Capitalization Grants for Clean Water State Revolving Funds	66.458		4,305,655

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Council Sussex County, Delaware Georgetown, Delaware

Compliance

We have audited the compliance of Sussex County, Delaware with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2008. Sussex County, Delaware's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Sussex County, Delaware's management. Our responsibility is to express an opinion on Sussex County, Delaware's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Sussex County, Delaware's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Sussex County, Delaware's compliance with those requirements with those requirements.

In our opinion, Sussex County, Delaware complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of Sussex County, Delaware is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Sussex County, Delaware's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Sussex County, Delaware's internal control over compliance.

Internal Control Over Compliance - Continued

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

This report is intended solely for the information and use of management, the County Council, federal awarding agencies and pass-through entities, is not intended to be, and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Council Sussex County, Delaware Georgetown, Delaware

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sussex County, Delaware as of and for the year ended June 30, 2008, which collectively comprise Sussex County, Delaware's basic financial statements and have issued our report thereon dated January 26, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Sussex County, Delaware's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sussex County, Delaware's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Sussex County, Delaware's internal control over financial control control control over financial contro

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sussex County, Delaware's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of Sussex County in a separate letter dated January 26, 2009.

This report is intended solely for the information and use of management, the County Council, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
